

### 1. Overview

### 2. Production Information

This machine is suitable for the processing of AWG#10-28 thick wire.

### 3. Technical Parameters

Line cutting ability: AWG#10-28 (0.08m<sup>2</sup>-5.26m<sup>2</sup>) line of sight material.

Peeling length: 1-30mm

Cutting length: 0.1-99999mm

Cutting tolerance: + (L \* 0.2%+0.2) mm

Line type: PVC, Teflon, Wire Glass

Volume: W400mm \* L450 mm \* H250mm

Weight: 35KG

Power supply: AC220V

Power: 260W
